

VEKA in Sendenhorst (Germany) is one of the world's leading manufacturers of innovative uPVC profile systems for windows and doors. More than 2,000 window manufacturers all over the world rely on the high-quality products and the unique service of VEKA. Through the commitment of our 6,200 employees, the VEKA Group with its 40 subsidiaries achieved an annual turnover of approx. 1.1 billion Euros worldwide.

Technical Service Engineer

Responsibilities:

- Technical support of established customer base and new business in Middle East, Pakistan, Iran, Afghanistan, South and East Africa
- Analyse market information and record market data
- Assist the Sales Manager
- Handle technical enquiries to win new business and assist with orders
- Contribute to the implementation of sales and marketing strategies

Requirements:

- Successful completion of a technical degree
- Very good English language skills both spoken and written
- Ability to work independently and structured, flexible, highly customer and service-orientated
- Willingness to travel throughout countries as mentioned
- Driving licence
- Familiarity with Microsoft Office (Excel, Word, Power-Point) and CAD
- Good German language skills and knowledge of Lotus Notes, Window Software and SAP would be advantageous
- Several years' work experience in the window or uPVC window profile market

As a future-orientated company, we continue to develop our market position worldwide. With your assistance, we do not only want to maintain the level we have achieved, but to develop it even further.

As well as a performance-linked salary, you will also benefit from the advantages of working for a global, family-owned group of companies. We look forward to meet you. Please send your cover letter, CV and salary expectations in English via email to:
